Crusher (feat. Saffron)

Junkie XL

Gonna crush yaToxic up key, you can't touch me
Freak show, peep show
Flash of casino, all I know
These streets aren't paved with goldMetal head, dead beat, you can't hurt me
Black crow swing low
Dark echoes, next thing I know
I'm not your stepping stoneRaging in the city, Saturday night
Take your chances, do or die
Tomorrow comes
And nothing stays the sameHi, I think I bruised a life
Keep your septic lullaby
It's a crusher
Gonna crush ya, gonna crush yaPoison and tease, I see through me
Moving, I scream
Running through the slit stream
All I know, this place is like a zooFright path, psychopath
You don't see me
Skinny mirror, dark stinger
I know what I want and it isn't youRages in the city, Saturday night
Take your chance, boy, do or die
'Cause tomorrow comes
And nothing feels the sameTake a chance, fool's paradise
Used to be a friend of mine
It's a crusher
Gonna crush ya, I'll just crush yaGonna crush yaRages in the city, Saturday night
Take your chance, boy, do or die
'Cause tomorrow comes
And nothing feels the sameTake a chance, fool's paradise
Used to be a friend of mine
It's a crusher
Gonna crush ya, I'll just crush ya
