

Flowers of Flesh and Blood

Necrophagia

Left to rot
Dried up, dying
Draining life
As we know itDoesn't seem to bad
Rotting flesh
Compared to the filth
Beyond magick
In which we're plantedI've seen the other side
There's nothing here for me
I crave darknessKilled by silence
Suffer the children
In a paradise lostA moment frozen
Sins of the father
Echoing forbidden fruits
Nothing but lies
Passed on like plagueTake me back
To nothingness
Away from the painEternal sleep
Flowers of flesh and bloodBeckons me
We are all
