

Fractured Millennium

Hypocrisy

I came from second universe, I've traveled far
I'm a God, I'm not pleased
Is this the way you're supposed to be?
You're free from the gameDoesn't anyone care anymore?
Killing your own world, there's nothing to stop you
Can't you see what you're doing?
Its got an end or nothing will be left!Dying planet
Mother nature bleeding, she will die
Burning planet
Burning lives and torching wildernessI'm screaming out inside but there's no one around
Raping people's thing, I bet you won't quit, no
Ready to strike back, ready for death
Armageddon waits near, for the rules of this [Incomprehensible]You gotta go on 'til you die
We're entering an age of money
Power is all you breed, praying to God who don't exist
Can't you see what you're doing? It's gotta end or nothing will be thereDying planet
Mother nature bleeding, she will die
Burning planet
Burning lives and torching wilderness
Planet
