

# Laila

## Blue System

Laila, Laila, Laila, Laila, Lai  
Laila, Laila, Laila, Laila, Lai  
Laila, Laila, Laila, Laila, Lai  
Laila, Laila, Laila, Laila, Lai  
I'm justified and banned, baby for your love  
Oh, I need you every day  
I don't care, my feelings are just enough  
This time, oh we'll go my way  
It's not a problem, please don't go away  
I don't care what people say  
Laila, Laila, Laila, Laila, Lai  
Oh I miss you Laila  
Laila, Laila, Laila, Laila, Lai  
Oh I need you Laila  
Oh, Laila it's like ecstasy  
Are you ready, oh come fly with me  
Oh, little Laila, I make dreams come true  
In a land of love for me and you  
Anytime I see you, I'm hypnotized  
Why we're going separate ways  
The mystery of love, babe I'm specialized  
Oh, I miss you every day  
Oh, we're searching just together, girl  
Baby, for a better world
