

# Embers

## Kid Cudi

[Verse 1]

Sit and watch the embers  
Claw marks on the sleeve  
I really don't want to leave  
I really don't want to leave  
I realize there are no answers  
To rid me of this cancer  
Still, I really gotta leave  
See, I really gotta leave  
Float in a sea of emotions  
Taken over by fatigue  
I told you I had to leave  
I told you I had to leave  
Hold my hand in heaven  
Count the heartbeats and count the seconds

I really don't want to leave  
I really don't want to leave [Verse 2]

Sit and watch the embers  
Claw marks on the sleeve  
I really don't want to leave  
I really don't want to leave  
I realize there are no answers  
To rid me of this cancer  
I really gotta leave  
See, I really gotta leave  
Drown in a sea of emotions  
Taken over by fatigue  
I told you I had to leave  
I told you I had to leave  
Hold my hand in heaven  
Count the heartbeats and count the seconds

I really don't want to leave  
I really don't want to leave [Outro]  
Woah-woah, I told you I had to leave

I told you I had to leave

\*Inhale\*

Hmmm, mmm

I'm happy when I'm....

Mmmm

Thank you ladies and gentleman, bye
