

It's Growing

Garnett Silk

My love is stepping up (My love is stepping up), I know

My love is stepping up

It's growing

This love inside of me

Oh, and it's showing

Shining so bright

It's growing

This love of mine

Yes, and it's showing

Just can't hide

So long we've been together

Can't keep you to myself

Got to share you with another

Got to share you with someone else

It's growing

This love inside of me

Oh, and it's showing

Shining so bright

It's growing, I know

This love of mine

Yes, it is showing

Just can't hide

Come on my brothers and sisters

Let's not waste our times

We got to move together

Let's synchronize our minds

It's growing

This love inside of me

Oh, and it's showing

Shining so bright

It's growing, I know

This love of mine

Yes, and it's showing
Just can't hide
A prayer for you
And a prayer for me

Let's live and love in harmony
Only love can set us free
It's growing
This love inside of me

Oh, and it's showing
Shining so bright
It's growing
Only love can set us free

Love is the answer, I know
Whoa, it's growing, it's showing, it's growing
Ah, ha, ha
It's growing

This love inside of me
Oh, and it's showing
Shining so bright
It's growing

This love of mine
Yes, and it's showing
Just can't hide
So long we've been together

Can't keep you to myself
Got to share you with another
Got to share you with someone else
It's growing

This love inside of me
Oh, and it's showing
Shining so bright
It's growing

This love of mine
Yes, and it's showing
Just can't hide
Come on my brothers and sisters

Let's not waste our times
