

Under

Sevendust

Fallin' down under the cracks
And now, I cannot make a sound
Forgive me if I ask for help
I'm crawling out of the bottom where my every thought
My every thought is consuming
Gimme some excuses, I need to know If I was under, could I see myself on the floor?
If I should trip inside my mind
Would I be under control of it all? Time, gimme time, gimme time, gimme What do you think will help me?
My teeth, chatterin' with every thought
I need some prayers to be answered
I believe I'll be choking on my mind soon
Why won't you help me?
One more time, I expect to get **** Gimme some excuses
You don't give a **** If I was under, could I see myself on the floor?
If I should trip inside my mind
Would I be under control of it all? Help me
Help me If I was under, could I see myself on the floor?
If I should trip inside my mind
Would I be under control of it all, control of it all? Help me
I'm under
