

Quarter Moon

Blue Highway

Chorus:

Quarter Moon, shine down on the highway tonight
I wonder if my darling sees you shining too
But it's always a long road home, so Quarter Moon
Won't you light my way through?

It's a long summer night and as the moon is shining bright
I recall the dreams we once held
All the memories that we shared, precious moments only spared
As the sky fell to darkness again

Chorus

Full of hope but paper thin, like things that might have been
That's the way I see you tonight
But I hold you in my heart, close inside yet far apart
And soon the dawn will be breaking again

Chorus
