## Trucha

## **Opm**

Masked with nylon with a can of krylon while on point see you through the walls we write on ride strong with a crew who's considered sly cons high on this rush provided my wrong cops try to put a stop to my art and hip hop but they knock what we rock we got the streets locked juras don't mix with pinturas catch us slipin and try shoots us we're looters of virgin walls the no gutters

writers reign supreme on the street art scene
my team goes by the OPM kings
rings and tight cliques we mix to snipe hits
and be the uppest that's the main thing
catch graffitIwreck on my city set
my committee gets respect well known with a gritty rep
who step to the bomb yard with a fat tip
tryin to get a name in this world and that's it
[chorus]
