Hard To Say

Son By Four

I find it so hard to say
All the things in my heart I've been hiding
I find it so hard to say
Oh, that I'm ready to give myself forever
Wanna tell you that I'll be your baby
And I really wanna hold you tonight
All the loving any one could need
And I know that we can make it all right
Let me give you what you want, what desire
Waiting for the right place the right time
'Cause I'm gonna be the one to take you higher
But all these things I find it hard to say
I find it so hard to say
Babe, I wanna be there when you awake
I find it so hard to say, so hard to say
I wanna share my world with you
Wanna be your one and only, honey
And together we can reach solid ground
Forever wanna be with you
'Cause I'm happy whenever you're around
All I want is for you to be
Together with me always baby
So this is what I really need
But I find it so hard to say
You're always there, baby
And that means the world to me
The words don't come out maybe
'Cause you take the air I breath
I wanna tell you, baby
Some how I'll let you know
You're loving drives me crazy
I'll never let you go
Wanna be your one and only, honey
And together we can reach solid ground
Forever wanna be with you
'Cause I'm happy whenever you're around
All I want is for you to be
Together with, always, baby
So this is what it really need

But I find it so hard to say
