

Best Friend

Madonna

I miss your brain
The way you think
But I don't miss
The way you used to drink I miss our talks
The Universal Law
You had a way
Of seeing through my thoughts It's so confusing I thought I met my match
An intellectual would tell for a catch
You always said we be better off as friends
It was inevitable that it would end Your picture's off my wall
But I'm still waiting for your call
And every man that walks through that door
Will be compared to you forever more Still I have no regret
'Cause I survived the biggest test
I cannot lie and I won't pretend
But I feel like I lost my very best friend I miss the country side where we used to lay
The smell of roses on a lovely summer day
You made me laugh, you had a clever wit
I miss the good times, I don't miss all of it You wrote me poetry
You had a way with words
You said you wanted more than just a pretty girl
Maybe I challenged you a little bit too much
We couldn't have two drivers on the clutch Your picture's off my wall
But I'm still waiting for your call
And every man that walks through that door
Will be compared to you forever more Still I have no regrets
'Cause I survived the biggest test
I cannot lie and I won't pretend
But I feel like I lost my very best friend Yet I have no regrets
'Cause I survived all biggest tests
I cannot lie and I won't pretend
But I feel like I lost my very best friend It's so sad that had to end
I lost my very best friend (lost my very best friend)
Not gonna candy coat it
And I don't want to pretend I put away your letter
Saved the best ones that I have
It wasn't always perfect
But it wasn't always bad Still I have no regrets
'Cause I survived the biggest test

I cannot lie and I won't pretend
But I feel like I lost my very best friend Yet I have no regrets
'Cause I survived the biggest test
I will not lie and I can't pretend
But I feel like I lost my very best friend It's so sad that it had to end
