Breathless

All 4 One

oooh, tonight i wanna turn the lights down low
turn the slow jams on the radio
i wanna feel your body next to mine
so let's slow down and baby take you time
'cause when i look into your eyes
always makes my nature rise-oh baby
wanna get you in the mood
'cause tonight we're gonna groove-oh baby
makin' love untill we're breathless
come over here i wanna make you hot
kiss you up and down until you say stop
touch all the little places that you like
girl you know i wanna take you higher
i wanna fill you up
till you say you've had enough- oh baby
i wanna hear you moan
call my name out all night long-oh baby
makin' love until we're breathless
makin' love until we're breathless
you know there's not a sound around

so come on we can break it down
baby don't say stop
girl you know we're hot
lady won't you leave me breathless
tonight we're just gonna kick it and just flow
break it down and let our passion go
tonight i wanna make sweet love to you
girl that's all i wanna do
makin' love until we're breathless
makin' love until we're breathless
i know there's not a soul around
so come on can we break it down
baby don't say stop
girl you know we're hot
baby won't you leave me breathless
tonight we're gonna kick it and just stroll
break it down and let our passion show
tonight i wanna make sweet love to you

girl that's all i wanna do
makin' love until we're breathless
makin' love until we're breathless
