3 Times And You Lose

Travis

I had a nightmare
I lived in a little town
Where little dreams were broken
And words were seldom spokenI tried to reach you
But all the lines were down
And soon the rain began to fall
On this little town, on this little townThe little people
Have very little left to say
Their words had all been shortened
It didn't really seem importantAnd I had a feeling
That you were very far away
But then a little voice inside me said
You'll never get away from hereAnd it's 1, 2, 3 times and you lose
Of course, it doesn't matter how you say it
I'm all out of love
So there's nothing really more to say
I'm throwing it all awayOh, we had opinion
But now we all think the same
We never look at one another
Only when another sufferedAnd I thought I saw you
Then it was just another face
But I stood on a blank horizon
Running in the human raceAnd it's 1, 2, 3 times and you lose
Of course, it doesn't matter how you say it
I'm all out of luck
So there's nothing really more to say
I'm throwing it all awayAnd it's 1, 2, 3 times and you lose
I'm all out of love
So there's nothing really more to say
I'm throwing it all away
Throwing it all away
Throwing it all away
