

Abacadabra

He Is Legend

Call all the Bastards
and all the freaks
There's a new Master
and i am he
I'll change you faster
with Alchemy
Just close your eyes
i am the only voice you see You're never gonna make it
if you don't learn to fake it
there's magic in the words that you sing
the people will all fear it
it's written on your spirit
you've got to play the part of the King Be a Disaster
a nobody
your mind grows faster
if you study on your knees
with alabaster and ivory
it's your demise
it's your only destiny You're never gonna make it
if you don't learn to fake it
there's magic in the words that you sing
the people will all fear it
it's written on your spirit
you've got to play the part of the King So head the words we say until infinity. there is no
mystery ABRACADABRABRACADABRABRACADABRARBADACARBA
