

Something's Turning Over

Low

As a child I hid between the pages
Cutting secret phrases overhead
But things we turn our back on when we're older
Only drag us back into our bedSomething's turning over
You'd better get out while you can
Something's turning overAngels setting fire to the ocean
Pirates making liars out of men
No, I don't think we'll ever see their faces
I don't think we'll ever see the endSomething's turning over
You'd better get out while you can
Something's turning over
Get out while you're young
Get out while you're young
