

# Ordinary

## Antifreeze

I want the most of what life can give to me  
Only the best, a life extraordinary  
But you're so scared, you push you're doubts on me  
you put me down, you call me ordinary Too scared to take a chance yourself, ya critisize everything I do  
though I may fail, well at least I tried  
that's more than I can say for you, always ordinary  
I don't care what ya think, I'm not ordinary you know what's best, that's what you say to me  
it's good advice, you're looking out for me  
I'm not ordinary, I'm not like anyone else  
I'll do what I want, I'll get what I need, I can take care of myself!
