Beat Up

Polish Club

So long, bye bye
and they only breathe fire
but the warmth that keep me alive is coming home

They're gone, you stay
Still got tales for days
Never giving time now I'm gone

So would you pick me up, or let me down
Can't stand waiting around
I've been lost around for so long

At this point everyone's wrong
Talking way too long
Still got tales for days now I'm gone
Cause their gone and you remain
Singing that same phrase
Yeah, we all know you love that song

So would you pick me up, or let me down
Can't stand waiting around
I've been lost around for so long

So would you pick me up, or let me down
Can't stand waiting around
There's no pitch and sound for so long

In the middle of a stormy night,
I'm stuck drinking high
And my patience gone
For so long

Won't somebody just starry white
Stop talking some shite
Now I'm too gone
But I can't leave yeah

Up, Down, A-round

Help
Me
Now

So would you pick me up or let me down
Can't stand being around
I've been lost around for so long

So would you pick me up or let me down
Can't stand being around
I've been lost around for so long
