

# Hey Driver

## Motor Ace

Hey, driver, don't take me too far down this road  
I hate prying and I've given you more than I own

I've given you more

I'm here, the scene of your crime

Just raise your glass and have a good time

Your fear is rising so high

We're having fun

Not having fun

Hey, driver, don't take me too far down this road  
The paint's drying, and the pain it ran dry long ago

The pain has run dry

I'm here, the scene of your crime

Just raise your glass and have a good time

Your fear is rising so high

We're having fun

Not having fun

We're having fun

Not having fun

You said you love you breathe you die

You've got your fears and I've got mine

I now I ain't ever running dry

I'm here, the scene of your crime

Just raise your glass and have a good time

Your fear is rising so high

We're having fun

Not having fun

I'm here, the scene of your crime

Just raise your glass and have a good time

Your fear is rising so high

We're having fun

Not having fun
