

Here We Go Again

Kaliyo

You've turned your back, your best defense
Let something, anything reach you
My words intact, as they were meant
I'm not trying to defeat you
Oh, oh no, oh here we go again
Oh, oh no, oh here we go, we go, we're going...One step back, one more crack
What's become of me and you?
When did we lose our humor?
Where did we lose our way?
When we were bound together
No matter what we faced
You used to make me better
I used to save your grace
I wanna be your lover
Don't wanna feel this way
Oh, oh no, oh here you go again
Oh, oh no, oh here we go, we go, we're going...
We had a love, I want that back
Let something, anything reach you
My words intact, as they were meant
I'm not trying to defeat you
When did we lose our humor?
Where did we lose our way?
When we were bound together
No matter what we faced
I want to make things better
Don't wanna feel this way
I wanna be your lover
Don't wanna feel this way
I wanna be your lover
Don't wanna feel this way
