Cashed In

Pulley

For what it's worth, I've walked miles
And I've seen the sun go down
I played my share of dues
And yet you still want to put me downStarted on the bottom so tell me
Why am I here again
It was at my expense
Now you're cashing inCashed inMake way for the boys in your town today
Dig in your pockets, they've got a lot to say
Look up on the wall
I'll have some shirts for saleAnother week has passed
Can you keep up with the brand new scene
The music's changing
With the constant tapping of my feetPlay it faster, play it slower
You still don't know
The music's not so important to you
It's what you're makin' off the showCashed inCashed inStarting from the bottom
Starting from the bottom again
Starting from the bottom
Starting from the bottom againStarting from the bottom
From the bottom again
Starting from the bottom
From the bottom again
