

# Fireball

## Alice Cooper

On a dark, desert night  
Look into the sky, something ain't right  
A fireball, red and grey People start to look, frozen in fear  
A man grabs a woman, draws her near  
They fall to their knees and pray All mighty God  
Is it today? Fireball, in the sky  
Fireball, in the sky Hey, little boy with a cowboy gun  
His mom picks him up, he starts to run  
He laughs out loud, he thinks it's a game  
The alarm goes off in the liquor store  
The trucks roll by with a thunderous roar  
It fell from the sky, a silver rain All mighty God  
The city's in flames All man alive  
Can we survive? My alarm goes off, I'm shaking with fright  
But blood runs cold, teeth clench tight  
But it's alright now, It's only a dream Well I go to the window, lean on the sill  
The night is hot, and all is still  
There's a blinding flash and now it's real All mighty God  
We die today  
Fireball, in the sky  
Fireball, in the sky  
Fireball, in the sky  
Fireball, in the sky  
Fireball, in the sky  
Fireball, in the sky  
Fireball, in the sky
