Step Back

Superheist

Strap up,strap down;
I really hope my generation doesn't fall down;
I've seen my way in therapy,
I hope I fade,before I age;
It's so contagious don't you say?(Chorus)
When i come to face tomorrow
I hope I needed it yesterday;
Then i'll breathe in your life,
Wrap it up and break away.Step back, stepdown, step around my
My face, it bleeds like a ghost
As I walk back through history;
The moment fades,pretty stains,
It's so contagious don't you say?(Chorus) x2I'm so depleted;
Noone needs it
Noone needs it(Chorus) x2I'm so depleted;
Rain dogged the seasons;
My golden dreams sold,
Noone needs it
Noone needs it
