

# Misery

## Velvet Acid Christ

Forever in our illusions, forever in our fate  
Forever in our illusions, forever in our fate Welcome to our misery  
Welcome to our dreadful dreams  
Welcome to our misery  
Welcome to our dreadful dreams We are your unholy masters  
Begging you to stay  
We are your own honest answers  
Driving us insane We are your unholy masters  
Begging you to stay  
We are our own honest answers  
Driving us insane
