

# 10,000 Horses

## Candlebox

Advisory - the following lyrics contain explicit language:

Feels like the same today  
10,000 horses drag me down  
Seems like the same you say  
10,000 voices cryin' out  
You put on yourself, you'll see  
There's nothin' left at all, left at all  
10,000 fingers  
Draggin' me down down down Never want to slow down  
I keep rollin' on  
Never want to slow down  
What I feel and what I know  
Oh it's all about to change  
About to change  
About to change, about to change Seems like the same your ways of movin' on  
10,000 lies, you're washing  
Your hands of everything else  
So put on yourself you'll see  
There's nothin' left at all  
10,000 stares  
They're bringin' me down down down Never want to slow down, I keep rollin' on  
Never want to slow down  
What I feel and what I know  
Oh it feels like the strain  
That everybody's givin' to me  
Won't let my hands get tied  
I'm gonna ride it all out  
Never gonna slow down this time Oh it's all about to, about to change  
About to change, about to change  
About to change, about to change  
From the past for knowledge tomorrow  
Carries me on my way  
I feel you pressing, words left unspoken

Change for the sake  
Change for the sake of changeSeems like the same you say  
Say 10,000 cracks you're walkin' on  
Feels like the same to say  
10,000 voices callin' on  
You put on yourself  
You'll see there's nothin' left at all  
10,000 horses  
Bringin' me down down downNever want to slow down, I keep rollin' on  
Never want to slow down  
What I feel and what I know  
Oh it feels like the strain  
That everybody's givin' to me  
Won't let my hands get tied  
I'm gonna ride it all out  
Never gonna slow down this timeOh it's all about to, about to change  
About to change, about to change  
About to change  
About to, about to change  
About to change, about to change  
About to change
