

Lean on me

Last Train South

Unemployment Lines yeah I've seen them all
No place left to go no place left to crawl
No money in my pocket no hope in my mind
well all I've seen is a lot of hard times

If you bend little suzy
Babe you just might lean
If you bend little suzy
You can lean on me

Once there was a quake and the roar was loud
The people got together and formed themselves a crowd
Age was no barrier they all felt the same
They didn't wanta be a pawn in a lousy chess game

If you bend little suzy
Babe you just might lean
If you bend little suzy
well you can lean on me

Followers leaders its all the same
It doesn't really matter it can never be changed
Some will rise and others will fall
Its a Money mad world when its dog eat dog

If you bend little suzy
Babe you got to Lean
If you bend little suzy
well you can lean on me

What I do I do I can't change my ways
I ain't lookin' for no parties or persons to blame
The tide ain't so high it could make me give in
The world is a ocean you'll drown if you don't swim

If you bend little suzy
Babe you just might lean
If you bend little suzy

well you can lean on me

If you bend little suzy
Babe you just might lean
If you bend little suzy Well you can lean on me
