Destroyed By You

Mxpx

Can someone tell me why I'm feeling this way?
Can someone tell me why this world is so gray?
It's never just black and white, so much went on tonight
Was I wrong or was I right?
You think your whole world revolves around around your head
You are ignoring me, you haven't heard a word I've said
Why can't I just pull myself together?
What's done is done, never say never

Can someone tell me why I'm feeling this way?
Can someone tell me why this world is so gray?
It's never just black and white, so much went on tonight
Was I wrong or was I right?
Always look for good in the bad
Learn from the mistakes that I have had
I re and re-learn to let it go, talk is easy
But it's so hard to show
