

Parasite Blues

Soilwork

All your presence makes me sick as dog
You parasite on a dream
That was worked for so long
You dragged a good soul down
And you buried his will in the mud... stay away...

Now she's a savior. A Lie. A forced goodbye
Manipulation of the desperate kind... So

I'll give you something
That you can't ignore
A bait to go all the way
A place where your urge gets paid
All hail the parasite blues

She's a lingering creature
She will blow your mind
But when it comes to your end
Of this infected alliance
She won't give in

Feel the love from your savior
A deceiver of trust
All that you give
Will be returned
With your feelings crushed

A place where your urge gets paid
Your conscience all washed away
He gave you a world that serves
What you've done before
Now it is here again. My dear
You just killed a friend...
All hail the parasite blues

Just when you thought
It couldn't get much worse
She raised the bar to an all-time low
You worked so hard at covering it up

But now it's taking a new shape

Solo: Andersson

I'll give you something
That you can't ignore
A bait to go all the way
A place where your urge gets paid
Your conscience all washed away
He gave you a world that serves
What you've done before
Now it is here again. My dear
You just killed a friend
I'll give you something
That you can't ignore
A bait to go all the way
