Grinspoon

You're suffocating me
Political ex bullshit
I can't stay in the room
With electricity on Next big thing I do your thing
If it gets me what I want
Next big thing your song I'll sing
Next big thing Yeah, thank God for sanctuary
Permission put me in a cage
Drop more money in
I'm dancing like a puppet Next big thing I do your thing
If it gets me what I want
Next big thing your song I'll sing
Next big thing Salmonella why?
