

Fidelity

a favorita internacional

Taught the ways of men since I was a child
Watching brothers in the streets running wild
They love a honey up then drop her back down
I'm here to give you solid loving pound for pound, yea
 Don't worry about thing baby
 I'll always do you right
 Don't worry about a thing baby
 I'll tell you about it girl
Don't you know? You were always there for me
 I could never let you free
 Cross my heart that I can be strong
 And devoted to you
Just 'cause I'm a man don't mean I'll let you down
You've been my pride and joy, you're heart's safe and sound, yea
 When I had nothing you were right by my side
 I came from rags to rich, now I'm living high, yea
 Oh I still love it when we play all day
Looking at each other's eyes and find sweet things to say, yea
 I understand a man who wants to fool around
But if he knew what I knew about you I know he'd always be down
 Don't worry about a thing, baby
 I'll always treat you right
 Hey hey yeah
 Let me tell you girl
 You were always there for me
 I could never let you free
 Cross my heart that I can be strong
 And devoted to you
I said, you were always there for me
 I could never let you free
 Cross my heart that I can be strong
 And devoted to you
 Don't you worry about a thing
 And I know that sounds so plain
 'Cause I can tell you anything
 To get me out of water
I know it's going to be rough sometimes
 You never have to try to find another
 You were always there for me

I could never let you free
Cross my heart that I can be strong
And devoted to you
