I Will Find You (feat. Alphamama)

[Moog](#)

Don't be afraid
Don't let it show
You are not aloneJust close your eyes
And call my name
And i'll come runningDon't give up
And don't give in
When they knock you downGet on your feet
And call my name
And i will find you (x4)And I will find you
I will find you
You are not aloneAnd i will find you (x4)Don't be afraid
Don't let it show
You are not aloneJust close your eyes
And call my name
And i'll come runningDon't give up
Don't give in
When they knock you downGet on your feet
And call my name
And i will find you
