Careless

Fred Eaglesmith

I think you're careless with my love
You forget how my heart breaks
I don't know what you're thinking of
Don't you remember how you love me?I think you're careless with my love
I'm like your favorite pair of pants
You bring me home and hang me up
You only take me out to danceI think you're hard on my emotions
You take the push and make it shove
Throw away the magic potion
I think you're careless with my loveI think you're careless with my love
I'm like your favorite pair of pants
You bring me home and hang me up
You only take me out to danceI think you're careless with my love
You forget how my heart breaks
I don't know what you're thinking of
I don't know what it's gonna takeI think you're careless with my love
I'm not the only star above
You wish upon it when you're lonely
I think you're careless with my loveI think you're careless with my love 4 xs
