

Access Adrenalin

Beatsteaks

Access Adrenalin
Please hang around if I can't get up,
What for?
Can't get along without you now
'cause it's the only thing
That keeps me following
I can't control myself
Excess adrenalin
I'm gonna be where I'm at
I'm gonna get what I like Don't wanna slow down never go down
I'll never fade to black Whoever engineers
Controls of interferes
Whenever you are near
We'll be around the world singing Where we send and receive it
Where we send and receive it Access adrenalin
Where have you been, I can't get up
No more
I can't go on and I can't stop
So bring on the attack
I never want to go back
Don't wanna slow down, never go down
Never fade to black Whoever engineers
Controls of interferes
Whenever you are near
We'll be around the world singing Any other effect will exit
Everything I blame will exit
Everything I fear will exit
