Born Again Teen

Lucius

[Chorus]
It's a feeling like a born again teen
Got a heartbeat like we're only sixteen[Verse 1]
Would you take my hand, baby?
You know you know I like to dance
Maybe we'll be good; we can be good, you and I
You can follow me, or if you want to take the lead
You know it's obvious we're naturally aligned[Chorus]
It's a feeling like a born again teen
Got a heartbeat like we're only sixteen
It's a feeling like a born again teen
Got a heartbeat like we're only sixteen[Verse 2]
Pull me in a little closer
Do you recognize me?
I have had my eye on you for quite a while
Never seen your moves like this
And always such self-confidence
I'm thinking how your lips taste next to mine
My knees shake and my hair is raising
Burning from this heat we're making
When the beat kicks in, will we survive?[Chorus]
It's a feeling like a born again teen
Got a heartbeat like we're only sixteen
It's a feeling like a born again teen
Got a heartbeat like we're only sixteen[Bridge]
Could somebody help me, please?
I don't think it's just me
I'm dying, dying
I know it's not just me
Could somebody help me, please?
I could just die, die
Die, yeah[Chorus]
It's a feeling like a born again teen
Got a heartbeat like we're only sixteen
It's a feeling like a born again teen
Got a heartbeat like we're only sixteen
