## Bars and Melody

Bars and melody  
BeautifulWhoo  
(Charlie:)  
Be-a-Beautiful  
Don't tell me girl 'cos I'm being truthful  
When I tell you your perfection  
Take a minute look at you reflection, oh  
Never put yourself down  
'Cos I'ma lift you up before you drown  
When I see you in the crowd  
The beat in my heart only gets louder  
Your head, your eyes, your style  
The way that you stretch and the way that you smile  
Girl I have been watching you for a while  
You will be making me run for a mile(Charlie:)  
Ooohh  
Your personality too much to handle  
Ya, light up the room like a candle  
Can't you see girl  
I hope you believe in destiny(Charlie:)  
The day I met you, I became somebody  
Now, I'm standing next to you  
You make me feel like somebody  
Tell me what you wanna do  
I just wanna be with you  
Wanna be with you  
Just wanna be with you  
Tell me baby what you wanna do(Leondre:)  
Come over here, we don't need to think about it  
Life is too fast to overthink about it  
It comes down what I don't want to lose  
Million girls in the world but I choose you  
You got some in the vibe, the way you move  
The way you talk I want to prove to you  
That I ain't fake, it's give or take  
Wanna slow it down for the emergency break  
'Cos you got something that I need  
My heart's with you just listen, believe  
Don't be shy when I hold you close

You're the only one I ever want the one I want the most (oohh)(Charlie:)

The day I met you, I became somebody

Now, I'm standing next to you

You make me feel like somebody

Tell me what you wanna do

I just wanna be with you

Wanna be with you

Just wanna be with you

Tell me baby what you wanna do(Charlie:)

Your eyes they shine to me

Your imperfections past me

You are perfect the way that you are

I'll be the sky and you'll be a star

I could be a moon to your light

You add the goodness to my night

Now, rest your head and go to sleep

I will be yours for you to keep(Leondre:)

Baby girl don't be shy, come dance with me

Me and you on the dancefloor has to be

When I hold you close baby my boo

'Cos you give me a sweet taboo

Your heart's locked up give me the key

Forever my lady you made me see

When I'm with you, girl they don't faze me

In my arms you're a charm you should show it baby

We should slow down, if you're gonna be mine

Don't need to rush let's take our time

(Skip a beat) Skip a beat, everytime you're around

Baby you could be my brandy, I wanna be down(Charlie:)

Ooohh

Your personality too much to handle

Ya, light up the room like a candle

Can't you see girl

I hope you believe in destiny(Charlie:)

The day I met you, I became somebody

Now, I'm standing next to you

You make me feel like somebody

Tell me what you wanna do

I just wanna be with you

Wanna be with you

Just wanna be with you

Tell me baby what you wanna do
