

Let's Dream In the Moonlight

Billie Holiday

Let's dream in the moonlight
Tell me that you love me
Tell the stars above me
What's in you heartLet's dream in the moonlight
Say you're glad you found me
Put your arms around me
Before we partEven though it's just pretending
And the night will be through
I can say I'm only lending
When I give my heart to youLet's dream in the moonlight
Lets your lips touch mine
Though we're only dreaming tonight
