Pleasure and Pain

Los Creepers

Come take this sacrifice
Hey, don't walk away
I'm not done with you
(You're not done with me)
Stop, we can't survive
Will you die for me?
('Cause I'd die for you)
I, I'm not insane
Cut my heart with this razor blade
Take this sacrifice
You can't feed on me
Can I feed on you?
Come take this sacrifice
Come take this sacrifice
You don't bring me pleasure
You just bring me pain over and over again
You don't bring me pleasure
You just bring me pain and nothing in between
Hey, there's no escape
You can't run from me
(I can't run from you)
Bow 'cause I'm your god
Will you pray to me
('Cause I'll pray for you)
Push your sins aside
Nobody cares, your head's fucked inside
Embrace your empathy
I don't care for you
You don't care for me
Embrace your empathy
Embrace your empathy
You don't bring me pleasure
You just bring me pain over and over again
You don't bring me pleasure
You just bring me pain and nothing in between
No, nothing in between
You don't want to hear the truth
You don't bring me pleasure
You just bring me pain over and over again

You don't bring me pleasure
You just bring me pain and nothing in between
No, nothing in between, no, nothing in between, yeah
No, nothing in between
Come take this sacrifice
