Follow the Path

Grady Tate

Start chasing rainbows
See where the rain goes
as it picks up the sun's glow
And follow the path
Where the flowers grow

Learn where the bees go
Isn't it funny they
are loaded with honey?
They follow the path
Where the flowers grow

Why must you be on?
Turn off the neon
Just take a hundred steps
Leave what they call life behind you
Leave all the lies that would blind you
Maybe the real truth will find you

Won't you take a thousand steps?
Learn giving's as good as receiving
Reach out for things worth achieving
Find someone you can believe in
And don't ever turn back
Follow, follow, follow

The sky's the limit
Take the inimitable ride on a rainbow
And follow the path
Where the flowers grow

Why must you be on?
Turn off the neon
Just take a hundred steps
Leave what they call life behind you
Leave all the lies that would blind you
Maybe the real truth will find you

Won't you take a thousand steps?
Learn giving's as good as receiving

Reach out for things worth achieving
Find someone you can believe in
And don't ever turn back
Follow, follow, follow
Follow, follow, follow

The sky's the limit
So take the inimitable
ride on a rainbow
And follow the path
Where the flowers grow
Where the flowers grow

Start chasing rainbows
