

# Play, Ruby, Play

Clinton Gregory

Play Ruby Play

(Verse)

Ruby she was a red neck beauty, Loved little Richard and sang Tutty Frutty

Wanted her name in lights, She wore her dresses tight

Ruby was a victim of circumstance, She liked to wiggle and boogie dance

But out in the country she hardly ever got the chance

(chores)

She had a local band that played the local bars

She had the local boys breathing hard

She had hillbilly eyes that would shine in the dark

She had a country soul and a rock and roll heart

And her whole body shook when she stood up

And played the piano

And the boys say play Ruby play, I really like the way you do it

Play Ruby play, I love the way you get in to it, She made the young men scream and the old men moan

Rock on rock on rock on. (Leed)

(verse)

Sometimes at night with the full moon beaming

Sheâ€™d run around the mountain kicking and screaming

Saying If I donâ€™t get out on the road Iâ€™m going to explode

Last time I saw her she was down in the city, Shaking and shouting making plenty

Ruby was a sight to behold when she was on a roll. (chores)

(Tag out after chores)

Rock on rock on rock on

play ruby play I really like the way you do it play Ruby play I love the way you get in to it.
