

To Be Wanted

[Olivia Newton-john](#)

You move your hand across my neck
You trace your hand across my cheek
And all is said, though we never speak

To be Wanted ? To Want

I want to be wanted, to want
I move my hand across your hair
I trace my hand across your lips
And all I need is to be like this

To be wanted, to want

I want to be wanted?to want

Let it be so

Wither thou go

My heart will follow

Just a stone?s throw

Into your soul

Beyond Today .. beyond tomorrow
When Angels dream of the perfect Kiss

They want to be wanted?

To Want

I want to be wanted ?

To Want

? To be wanted ?.

? To Want.
