Greater Than

Vedera

Here in a box I hide the letters Written, postmarked with your name Secrets I wish I could only share With a heart that feels, feels the sameAnd here we fall to pieces In front of each other but we know Somehow we're greater Than our lonely fearsHere's where the notes were torn and crumbled Before feelings could reach the page Try to replace some sober thought From emotion, fists held up with rageAnd here we fall to pieces In front of each other but we know Somehow we're so much greater ThanHere we fall to pieces In front of each other but we know Somehow we're greater Than our lonely fearsThough I'm a simple mind, I know I can see the picture drawn out here You are the reason I have found To keep believing in these years And though the road is long The trying keeps us holding on this way And make no mistake, this is love Love, love, love, this is love, loveAnd here we fall to pieces In front of each other but we know Somehow we're so much greater ThanHere we fall to pieces In front of each other but we know Somehow we're greater Than our lonely fears
