

Inside The Bubble

Smalltown Poets

Flying high with the crowd at night
We float on unseen fuel
Each one sails, a gossamer sphere
Our course unwinds like thread from a spool
What's it like inside the bubble?
Say the souls who'd like to try
Cut your tether, come and join me
We can swim across the sky
Look at me with a childlike eye
And understand who's bound
Why are those who are on the ground
Afraid of falling down?
What's it like inside the bubble?
Say the souls who'd like to try
Cut your tether, come and join me
We can swim across the sky
Love has killed our fear
Yes and when we're done we'll disappear
Draws you out inside the ring
Comes our holy breath of truth
I'm setting free and sealing you
In an eternal youth
What's it like inside the bubble?
Say the souls who'd like to try
Comes together, come and join me
We can swim across the sky
Love has killed our fear
Yes and when we're done we'll disappear
Love has killed our fear
Yes and when we're done we'll disappear
