

# Black Widow

## Motley Crue

In her eyes you're the night's desire  
You're the one on her lips  
She'll drink your love in the shadow of blood  
It's a deadly, deadly kiss You're just a man all in my prey  
In the web of delight  
All you can do is close your eyes  
'Cause you lost your life In this theatre of pain  
Love and hate's the same  
To the black widow  
To the black widow  
To the black widow I need a love, I need a love  
I need another black widow  
I need a love, I need a love  
I need another black widow Well among kings and queens  
Love and hate's the same  
In this theatre of pain  
Love and hate's the same  
To the black widow In her eyes you're the night's desire  
You're the one on her lips  
She'll drink your love in the shadow of blood  
Oh it's a deadly, deadly kiss You're just a man all in my prey  
In the web of delight  
All you can do is close your eyes  
'Cause you lost your life In this theatre of pain  
Love and hate's the same  
To the black widow  
To the black widow  
To the black widow I need a love, I need a love  
I need another black widow  
I need a love, I need a love  
I need another black widow Well among kings and queens  
Love and hate's the same  
In this theatre of pain  
Love and hate's the same  
To the black widow I need a love, I need a love  
I need another black widow  
I need a love, I need a love  
I need another black widow I need a love, I need a love  
I need another black widow

I need a love, I need a love  
I need another black widow Well among kings and queens  
Love and hate's the same  
In this theatre of pain  
Love and hate's the same  
To the black widow
