

Lesson One

Raised Fist

I'm having more and more anger stored in my head feeling kind of bored
How can it be that so many more people are stupider than me
I'm talking about you with a disgusting grin
How can you think You hate me too but i'm better than you are
You want to beat me up while i'm laughing at you. Now i've finally realized the reason of your bald head
You've lost your real hair and now just covering it up.
Cause real skin s aren't against other cultures you egocentric fool. It's kind of important for me
To put some pressure on those bald-headed idiots.
And to all of you non fascist people;
Just remember your better than them. I'm having more and more anger stored in my head feeling kind of bored
How can it be that so many more people are stupider than me
I'm talking about you with a disgusting grin
How can you think You hate me too but i'm better than you are
You want to beat me up while i'm laughing at you.
