

Body Of Water

Red Hot Chili Peppers

Show me a sign that I love you
Blow me your mind 'cause you always do
Remind me to tell you that I've come to believe in the beauty
The power of you Woman dissolved into the sea
The body of water is calling me
The god of my daughter is always free
There's nothing to solve when you're solving me Oh, oh, oh, I'm in your company
Oh, oh, oh, body that's calling me
Oh, oh, oh, I'm in your company Throw me a line, I could use one
A special design because I'm your son
Two thousand below where I feel my love
The body of water where I come from Oh, oh, oh, I'm in your company
Oh, oh, oh, body that's calling me
Oh, oh, oh, I'm in your company I'm dreaming, got a reason to steal fire from the other side out there
Formations flow like streams, I'm made with a life to spare
Get the jizz, Mr. Sism got a rhythm, technology of a prayer
Scientist to the prism of faith and hope, so I am there Baby, I'm home, you can come here
The science of love is becoming clear
Invisible love with the color still
A meet to a place in the atmosphere and I may believe Oh, oh, oh, I'm in your company
Oh, oh, oh, body that's calling me
Oh, oh, oh, I'm in your company
