Play It Right

Sylvan Esso

When the sounds come together
so close to my face
It's no wonder we wonder
what's taking place
oh, I feel like an animal in the night
play it rightplay it right (6x)If my ears were as big as the ocean
I could hear all of your devotion
I would be more than a small human with her head
pressed against your mouth in motion
play it rightplay it right(6x)and we will move
just like we're in a movie
oh we will speak
so warm and smoothly
we are
like the people we came from we are
dancing and advancing to the lightplay it right...
play it right, oh play it right
