

# Play It Right

## Sylvan Esso

When the sounds come together  
so close to my face  
It's no wonder we wonder  
what's taking place  
oh, I feel like an animal in the night  
play it rightplay it right (6x)If my ears were as big as the ocean  
I could hear all of your devotion  
I would be more than a small human with her head  
pressed against your mouth in motion  
play it rightplay it right(6x)and we will move  
just like we're in a movie  
oh we will speak  
so warm and smoothly  
we are  
like the people we came from we are  
dancing and advancing to the lightplay it right...  
play it right, oh play it right
