I Love You

Bobby Bare

[Both]I love you you you no one else will ever do always true true true I'll forever be to you
I love you no one new will never ever do I'll always be true to you cause I love you
[Bobby]The wedding bells are ringing in the chapel just over the hill
They're ringing for the wedding of my best friend Bill
He wed the girl I loved and I'd rather to die than to live I got to choose
Cause I've lost her and I've lost the friend
But there's one thing I'd never lose that's the way that she says
[Skeeter]I love you you you no one else will ever do
Always true true true I'll forever be to you

[Bobby]Yes in her shy sorta way I could leave you here now cause I like she was here today
She said she would always love me she would always be good and true
Yes that's one thing I'll never forget the way she says
[Skeeter]I'll always be true to you cause I love you
[Both]I love you you you...
I'll always be true to you cause I love you
