

Ain't No Love

Paris

I don't know what you've been told, baby
But, there's definitely something wrong with you
This shit is getting kinda old baby
Staying out all night and acting like a fool
You don't come home at night
All we do is fuss and fight
Still, hangin' with the boys
When I'm the only one employed
Can't buy me diamond rings
Can't buy a damn thing
Pager beeping 911
I thought I was the only one
Ain't no love, ain't no joy
Ain't no times left to enjoy
Ain't no love, even no lust
Ain't no kindness baby, ain't no trust
Lately, you been kinda bold, darlin'
Getting pages and calls all night through
I guess it's time for me to fold darlin'
'Cause there's nothing left to hold on to
Ain't no love
Ain't no love, ain't no joy
Ain't no times left to enjoy
Ain't no love, even no lust
Ain't no kindness, baby, ain't no trust
Ain't no love, ain't no joy
Ain't no times left to enjoy
Ain't no love, ain't no lust
Ain't no kindness, ain't no trust
Ain't no love, ain't no joy
Ain't no times left to enjoy
Ain't no love, even no lust
Ain't no kindness baby, ain't no trust
Hey, hey, yeah-e-yeah
Yeah-e-yeah
Through all the pain that you caused me
I was there, I was there
Through all the times, that you didn't see
I was there, I was there
Through all the gambling debts you had
I was there, I was there
Now I'm gone and it's too bad
I was there, I was there
Through all the pain that you caused me
I was there, I was there
Through all the times, that you didn't see
I was there, I was there
Through all the gambling debts you had
I was there, I was there

Now I'm gone and it's too bad
I was there, I was there Through all the pain that you caused me
I was there, I was there
