

Don't Be a Girl About It

Kelly Clarkson

Any chance you get to play the worn out pity card
Any opportunity to push my buttons hard
It's getting old, your "poor me" thoughts
Believe me, boy, when I say "so what" This broken record thing has got to stop
I'm losing interest in your pillow talk And oh it's not looking good
And oh I'm not in the mood
And oh I can't get through
To you Don't be a girl about it
'Cause I didn't say yes
Don't be a girl about it
'Cause I wouldn't pretend
Don't be a girl about it
Now you're whining again
Don't be a girl about it
You're such a girl about it Now you're up in arms because I say we're not working out
You wonder if I loved you from the start, well I tell you what
I knew a guy who changed my world
And then he grew into a little girl This metamorphosis is just too much
You're crossing lines that I just can't let go on And oh it's not looking good
And oh I'm not in the mood
And oh I can't get through
To you Don't be a girl about it
'Cause I didn't say yes
Don't be a girl about it
'Cause I wouldn't pretend
Don't be a girl about it
And now you're whining again
Don't be a girl about it
You're such a girl about it And oh I'm sleeping with the enemy oh oh
And oh I'm counting sheep while you're in love I guess it's true that love can grow in different directions
I chose the high road and you chose to be a girl
I know you're mad at me now
It's all my fault somehow
Here comes my favorite part
You're so misunderstood And oh it's not looking good
And oh I'm not in the mood
And oh yeah I'm so through
To you Don't be a girl about it
'Cause I didn't say yes

Don't be a girl about it
'Cause I wouldn't pretend
Don't be a girl about it
And now you're whining again
Don't be a girl about it
You're such a girl about it And oh I'm sleeping with the enemy oh oh
And oh I'm counting sheep while you're in love
Don't be a girl about it
