

# Loving You Sunday Morning

## Scorpions

Working hard to get it on for you, everyday and night  
I give you all I've got to give, take it all  
Love I know that you're feelin' blue, lonely deep inside  
'Cause I know how it feels to be alone Loving you Sunday morning  
You were on my mind love everyday  
Loving you Sunday morning  
Your love makes me fly so far away People tell me that I'm gonna lose you, our love will die  
So tell me is it true, right or wrong  
I never ever wanna lose your love, so I will change my life  
Believe in me my love, I'm coming home Loving you Sunday morning  
You were on my mind love everyday  
Loving you Sunday morning  
Your love makes me fly so far away Working hard to get it on for you, everyday and night  
I give you all I've got to give, take it all  
I never ever wanna lose your love, so I will change my life  
Believe in me my love, I'm coming home Loving you Sunday morning  
You were on my mind love everyday  
Loving you Sunday morning  
Your love makes me fly so far away
